## Pro Stress web site launch

***Rotterdam. The Netherlands Europe , September 4, 2006 – Artist Han Hoogerbrugge and writer Paul A. Hall announce the launch of the new Pro Stress website and the introduction of the Pro Stress pill at [www.prostress.com](http://www.prostress.com)***

*Is there an elixir to alter an alter to amend the broken peace of mind in a world where winners never quit and quitters never win?*

*Dutch artist Han Hoogerbrugge and American writer Paul A. Hall have joined forces to create Pro Stress a new destination at the edge of the primordial grid designed to explore a cure for the painful side effects of the human condition. Pro Stress is designed to be a powerful force of resistance for the model organism held together by weak bonds who must daily fight to survive the living death of this present age. The artists state that when experienced as directed Pro Stress is a highly effective form of self preservation for the rich or poor that creates a being of cultivated tastes and primitive impulses who will be equally comfortable holding a martini or a machete.*

*Pro Stress.com is founded by H.Hoogerbrugge*
